

Certain-teed

Roofing - Paints - Varnishes

Certain-teed means certainty of quality and guaranteed satisfaction—

the first and last object of careful buyers. Both quality and satisfaction are guaranteed by a business which has gained world leadership because of its ability to manufacture and distribute the highest quality products at fair prices.

Certain-teed Roofing & Shingles

Certain-teed is a conservation product. It is made from rags and asphalt, skillfully converted into roofing that is impervious to the elements.

Certain-teed is the most efficient type of roof for all kinds of buildings, from the modern skyscraper to the farm barn. It is light weight, weatherproof, clean, sanitary, fire-retardant. Certain-teed is not affected by fumes or gases, and cannot rust or corrode. Its first cost is moderate, laying cost low, and upkeep practically nothing. Certain-teed is guaranteed 5, 10 or 15 years, according to thickness.

Certain-teed Paints & Varnishes

Made from the best quality materials, mixed by modern machinery in scientifically correct proportions to produce the highest quality paint.

Certain-teed Paints and Varnishes are sold at cost plus a small profit. Each color is priced according to its cost. Paint makers usually charge the same for all colors, basing their prices on the cost of making the expensive colors. The Certain-teed policy puts each color on the right basis. Therefore most Certain-teed Paints cost you less than competing paints of anything like the same high quality.
